Disk Partitions - GSFC DAAC

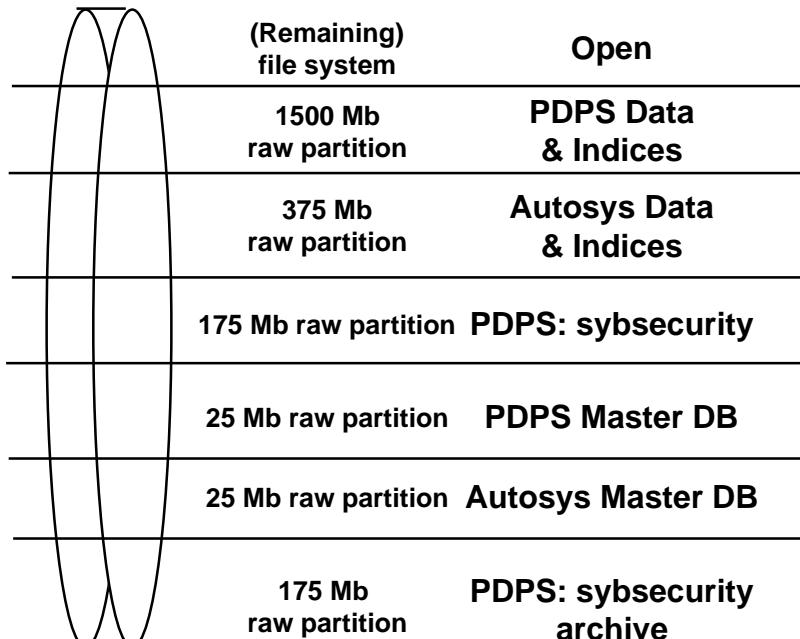

8/15/96

Option 1

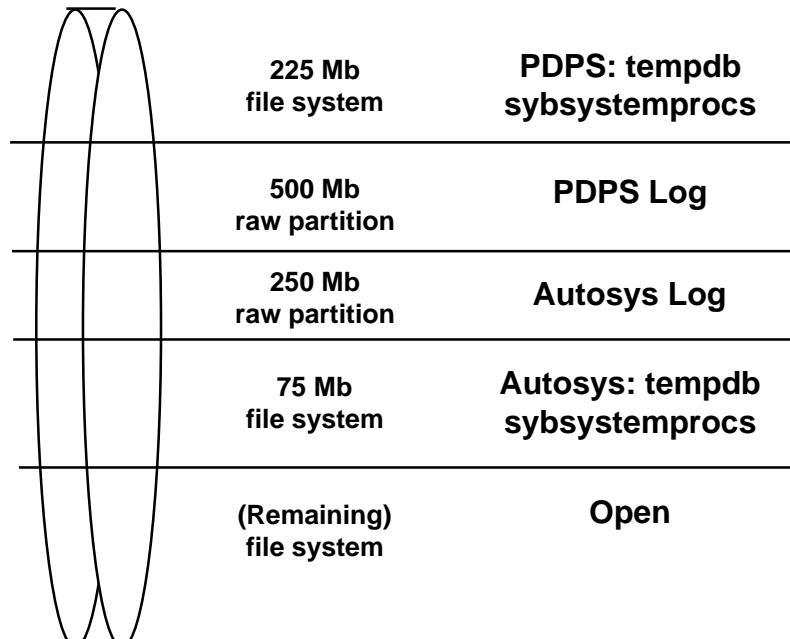

Document Number: 420-TD-037-001

AITHW-GSFC-2

External disk: 4 Gb

Internal disk: 4 Gb

NOTE: The developers do not require RAID for this application.
They are willing to accept data loss since the last backup in the event of a hardware failure.

This option provides the best performance, but may require repartitioning of the internal disk drive.
